

## Welcome to Arizona Spine Consultants

Dear Patient,

On your scheduled appointment date \_\_\_\_\_,

we ask that you bring in all your records and films pertaining to your spine. Please call **602-242-6500** two days prior to your appointment to confirm. It is important that you confirm your appointment since we often book out far in advance. We ask for verbal confirmation at least 48 Hours before that appointment or we will need to cancel that appointment and fill it with another patient.

Please bring this completed packet and “actual films” to your appointment.

If your plan requires a referral, please make sure you have your primary care doctor fax it to **602-242-6600**.

- Dr. Rappoport requests that “actual films” be brought in instead of a CD. We understand that at some Radiology facilities films are no longer an option. If this is the case, a CD would be acceptable.
